TECH CENTER 1600/2900

1. I am a joint inventor of the captioned patent application, and that I made and conceived the invention described and claimed therein.

2. I made and conceived this invention while being employed by Human Genome Sciences, Inc. and the invention is related to the work I am employed to perform and was made within the scope of my employment duties. The invention was made during working hours and with the use of facilities, equipment, materials, funds, information and services of Human Genome Sciences, Inc. to the best of my knowledge and belief.

3. To the best of my knowledge, the invention was not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors: Energy Research and Development Administration or the Department of Energy.

4. The undersigned inventor declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
